

# ONCOLOGY

NUCLEAR MEDICINE AND TRANSPLANTOLOGY

**Proceedings of III International Scientific and Practical Conference**  
**"Current Issues of Bone Marrow**  
**Transplantation and Hematology"**  
**October 11-12, 2025, Astana, Kazakhstan**

# List of Articles

**1.Opportunities for Genetic Stratification in Personalized Treatment: A Case Study of Multiple Myeloma**

**2.Infectious Mortality After Allogeneic Hematopoietic Stem Cell Transplantation in the Early Post-Transplantation Period: A Single-Center Retrospective Study**

**3.Changing Role of Allogeneic Hematopoietic Stem Cell Transplantation in the Treatment of Patients with Chronic Myeloid Leukemia**

**4.Evaluation of the Effectiveness of Additional Infusion of Hematopoietic Stem Cells (“Boost”) as a Treatment for Graft Failure After Allogeneic Hematopoietic Stem Cell Transplantation**

**5.Epidemiology of Gram-Positive (G+ bacteria) Bloodstream Infections in Patients After Allogeneic Hematopoietic Stem Cell Transplantation (allo-HSCT)**

**6.Allogeneic Hematopoietic Stem Cell Transplantation in Acute Myeloid Leukemia Among Elderly Patients**

**7.The Role of Allogeneic Hematopoietic Stem Cell Transplantation in Patients with Blast Crisis of Chronic Myeloid Leukemia in the Era of Tyrosine Kinase Inhibitors**

**8.Results of Targeted Therapy for Systemic Mastocytosis at the R.M. Gorbacheva Research Institute**

**9.Influence of Immunophenotypic Characteristics of Plasma Cells in Multiple Myeloma Patients on Disease Prognosis and Course**

**10.Risk of Developing Malignant Blood Diseases in Individuals Infected With Hepatitis C and B Viruses**

**11.Outcomes of Allogeneic Hematopoietic Stem Cell Transplantation in Patients with Myelodysplastic Syndromes**

**12.Colonic Microbiota Profile in Patients with Polycythemia Vera**

**13.Allogeneic Hematopoietic Cell Transplantation in Combination Therapy for Refractory Myeloid Neoplasms**

**14.Efficacy of PD-1 Inhibitor Maintenance Therapy After Autologous Transplantation in Patients With Relapsed/Refractory Classical Hodgkin Lymphoma: Interim Results of a Phase II Clinical Study (NCT06812858)**

**15.Treatment of Adult Patients with Acute Promyelocytic Leukemia Using the AIDA Protocol: Survival Analysis at the National Research Oncology Center (NROC)**

# List of Articles

16. Prognostic Significance of CD56 Expression in AML in Pediatric and Adult Populations
  17. Coexistence of Multiple Myeloma and T-Cell Lymphoblastic Leukemia/Lymphoma (Etp-All): A Rare Clinical Case
  18. Clinical and Laboratory Characteristics and Prognosis of Patients with Chronic Myelomonocytic Leukemia
  19. Treatment of Acute Promyelocytic Leukemia During Pregnancy: A Clinical Case Report
  20. A New Screening Index for Differential Diagnosis of Iron Deficiency Anemia and Thalassemia
  21. Use of Azacitidine and Venetoclax Combination in the Treatment of Relapsed Acute Myeloid Leukemia: Experience of Two Clinical Cases
  22. Clinical Case of Successful Blinatumomab Use in an Adult Patient with Multiple Relapses of Acute Lymphoblastic Leukemia (B-II Variant)
  23. Genetic and Phenotypic Characteristics of Hb H Disease in the Azerbaijani Population
  24. Chronic Myeloid Leukemia with Concomitant Immune Thrombocytopenia: A Rare Case Highlighting the Importance of Bone Marrow Analysis
  25. Features of Cardiac Hemodynamics and Blood Gas Composition Correction in Patients with CML. Respiratory Intensive Therapy. Literature Review and A Clinical Case
  26. Efficacy of the Combination of Azacitidine, Venetoclax, and Midostaurin in A Patient With Refractory-Relapsed FLT3-ITD-Positive Acute Myeloid Leukemia: A Clinical Case
  27. Autologous Hematopoietic Stem Cell Transplantation in Lymphoma Treatment: Efficacy, Challenges, and Possibilities in Uzbekistan
  28. First-Line Therapy of Primary Central Nervous System Lymphoma: A Russian Multicenter Study
  29. Multicenter International Experience in the Treatment of Aggressive Peripheral T-Cell Lymphomas
  30. Assessment of Quality of Life in Patients with Oncohematological Diseases at Different Stages of Treatment and Rehabilitation in the Republic of Tajikistan
